

Kelly Hi-Light

We Are Grateful -

TO FATHER: For weekly religious instructions, friendly and helpful interest in matters both spiritual and temporal.

TO THE SISTERS: For the understanding and needed qualities of a principal, the help and patience given us since our freshman year, the overtime spent in our behalf and assistance given us to complete our yearbook. And for the kindly inspiration and admonition for which we say "thank you".

TO MR. HEGARTY: For patience and time given us during play rehearsal, assistance with assignments and the excursions on which he took us.

We appreciate the educational opportunities given to us. Thank you!

Administration

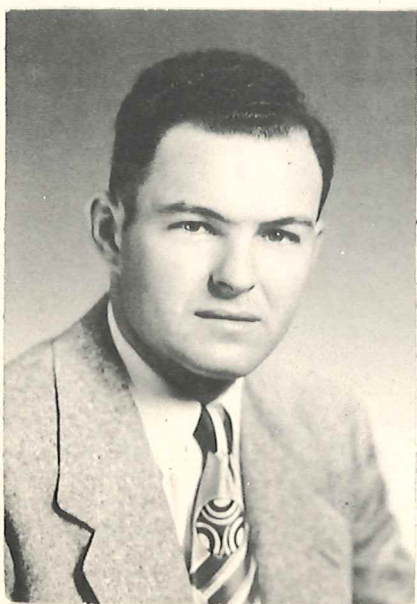

The challenge to the graduate of 1952 is the building of a moral character. You are the America of to-morrow. Are you going to let your country down as the graduates of thirty and forty years ago are doing? Those graduates have lost sight of what is right and wrong. You see how they have failed. Why do I say this to you? Because we need men and women of Christian character to swing the pendulum of right living back to the other side. Expediency has been the motto of our country and not right and moral law for the past thirty years.

Will the teachings of the Son of God be shown forth in your lives and character in the years that are to come? If so then we can look for a strong America from not only the graduates of the Kelly High but from all in this great country of ours.

You might say our tiny efforts will not be noticed over the world. If you can build a community in which there is whole support of right principles you will have the eyes of the world on you.

We will be looking to you as a class that will show the world that you will prefer nothing to the law of God.

Fr. Egbert Hall O.S.B.

When you leave high school keep the zeal for righteousness burning brightly and do not, as the years pass, slip into a passive attitude. Put into practice the principles that you have learned. Labor is honorable: You reap what you sow. Justice will triumph.
